

COMEBACK STORY OF THE MONTH

7/2020

What do you do when there is no way out?

We are a small family business in South Dakota. We got in way over our heads with the startup of our office. A couple years in our office was plagued with collection phone calls, angry agents trying to get money we simply did not have. We wanted to pay what we owed but not lose our hard earned family business in the process. I looked into many companies who offered ways to help small businesses in trouble, but I honestly didn't have a clue about any of them. Corporate Turnaround had good reviews, so I took a chance.

I cannot emphasize this enough - WE ARE IN BUSINESS, OUR DOORS ARE OPEN RIGHT NOW BECAUSE OF THEIR HARD WORK. CT worked hard to get the payments into something that was manageable. We were able to stay open the entire time. The best part - immediately the horrible phone calls stopped. My Client Advocate Adam [REDACTED] stayed in touch with me the whole time, answered all my questions and truly saw the value of our small family business. Everyone should know about this company, everyone should know that there are options out there, and you don't have to close! There are options that are not closing or bankruptcy. Please give them a call if you are in trouble. Doing so saved our families business, and we hope to be open for a long time to come!

Thank you Adam and Corporate Turnaround for making this possible!

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Until a debt is resolved, creditors may continue with their collection efforts, including phone calls and legal action. CT does not provide any legal services or legal advice. Consult with a licensed attorney regarding the applicability of bankruptcy.
