To whom this may concern:

It is my honor to acknowledge Corporate Turnaround with this success story. The support and dedication of Adam & the team at CT is to be highly commended. They assuredly desired to help save what we worked so hard to keep - our business, our home and our integrity. When the Great Recession hit our nation, we lost our state contract which sent our newly expanded company into quick decline. No matter what money manipulating I was able to do, everything was spiraling out of control. The business was too far gone, our home which is part of the family farm was in foreclosure and we felt we'd lost our reputation. Determination led me everywhere. Then, the local small business representative told me about a lecture he recently attended. He was unable to convince anyone to try what he learned - a business survival opportunity. After hearing this plan, I asked for the phone number of Corporate Turnaround. Being fearful only keeps you from getting where you're supposed to be. Right? That call changed our lives. Corporate Turnaround immediately went to bat for us. Adam [REDACTED], my Client Advocate and his team made a long term commitment, in my best interests, almost ten years ago. Yes, they make money, at least I hope they do, and they deserve it. They did exactly what they said they would do - negotiate with creditors to allow me the time to make it right with the people we owed. I used this time to focus on strengthening the business. If I hit glitches along the way, Adam and the team at CT would always work with me to the best of their ability. I've never experienced an unanswered phone call or email. You won't be disappointed in the results. All companies want to make money. How many companies are sincere in what they provide? If you're in trouble, don't dismiss the thought of calling Corporate Turnaround. This company goes the extra mile for it's clients!! They truly are an exemplary group of professionals.

Thank you to Adam, Client Advocate and friend, for having faith in me.
Thank you to Corporate Turnaround for providing a very needed service in these unprecedented times.

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers, and others may be resolved later on.
