

## COMEBACK STORY OF THE MONTH

To whom this may concern,

As new small business owners, we probably made many of the classic mistakes that so many new entrepreneurs make and ended up in the same classic financial bind between accounts receivable and accounts payable. Faced with draconian choices, we turned to Corporate Turnaround to help us rationally plan a recovery strategy that would take us back to fiscal health. Not only did Adam, our account manager, provide us with essential guidance, advice and support through the entire period but the security of having CT available to assist with additional accounts and provide the structure to help us stay the course was immensely valuable. We were able to reach reasonable settlements with our creditors, avoid long-term negative impact to our credit and resolve our indebtedness in manageable payments. I hope no one finds themselves in need of the services of Corporate Turnaround but, if you do, I can recommend CT without reservation.

Sincerely,

Your company's results may vary. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers and others may be resolved later on, with settlements ranging from pennies on a dollar to payment in full. Until a debt is resolved, creditors may continue with their collection efforts, including phone calls and legal action. CT does not provide any legal services. Each restructuring has a unique combination of factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results.
